Front-end developer with 2 years of experience in building web applications serving 10+ million users. Passionate about creating responsive and accessible websites. For the past few years, my focus area has been front-end development with PERN and MERN stack. Seeking opportunities to contribute my skills and creativity to a dynamic development team.

TECHNOLOGY STACK MERN and PERN

- Proficient in HTML5, CSS3, and JavaScript, with a strong understanding of modern front-end frameworks like React, Redux, Bootstrap, and Tailwind
- Experience with responsive web design and mobile-first development, ensuring seamless user experiences across devices.
- Deep knowledge of UI/UX principles and best practices, with a keen eye for design and attention to detail.
- Familiarity with version control systems such as Git and collaborative development workflows.
- Strong problem-solving skills, adaptability to new technologies, and a commitment to staying updated with industry trends.

PROFESSIONAL EXPERIENCE

2021 - Present   Front-End Developer
                    ProfuseCC, Texas

- Involve in Software Development Life Cycle (SDLC) from gathering user requirements to analysis, design, development, testing, deployment, and production support
- Integrate front-end elements with MongoDB, Node.js server, PostgreSQL, ExpressJS, and write testable server-side code using unit test
- Implement web-security leveraging WAF and collaborate on the development of back-end services for webhooks and integrations, utilizing Node.js and PostgreSQL
- Design the front-end applications UI web pages using web technologies like HTML, CSS, and Bootstrap.
- Leverage JavaScript to present data to users in a user-friendly environment
- Create REST API endpoint to support secure integration
- Built responsive site using Bootstrap that fits devices of different visual sizes.
